

ICPA 7th Conference & Exhibition

TOPIC: THE EFFECT OF: SCREENING AND PREVENTATIVE CARE AND MANAGEMENT IN THE EARLY DETECTION OF DISEASE

Don't miss this opportunity to gain invaluable and enlightening insights at the upcoming ICPA 7th Conference featuring guest speaker Prashnee Naidoo, a distinguished healthcare expert. Prashnee's talk, titled "The Impact of Screening, Preventative Care, and Early Disease Detection Management in Pharmacy," promises to be a game-changer for our profession.

As a highly accomplished pharmacist with an impressive academic and professional background, Prashnee brings a wealth of knowledge and experience to the forefront. Her unique blend of pharmaceutical expertise and business acumen, including an MBA degree, positions her as a true visionary in the healthcare industry.

In this engaging presentation, Prashnee will delve into the critical importance of screening, preventative care, and early disease detection within the pharmacy environment. Drawing from her extensive experience across various healthcare sectors, she will unveil innovative strategies and best practices that can revolutionize patient care and outcomes.

Furthermore, Prashnee's talk will explore the intersection of pharmacy and healthcare management, providing valuable insights on how pharmacists can play a pivotal role in improving overall public health.

Don't miss this opportunity to gain invaluable knowledge and inspiration from Prashnee Naidoo's expertise. Join us for this important talk as we embark on a journey towards a healthier future through proactive independent pharmacy practices and early disease detection management. Be part of the conversation that has the potential to reshape the landscape of healthcare for better patient outcomes.

ICPA 7th Conference & Exhibition

Learning Outcomes:

Pharmacists can enhance their continued professional development by attending Prashnee Naidoo's talk on "The Impact of Screening, Preventative Care, and Early Disease Detection Management in Pharmacy" in the following ways:

Advanced Clinical Knowledge: Gain a deeper understanding of the latest advancements in screening, preventative care, and early disease detection techniques. Discover how these strategies are integrated into community pharmacy practice, allowing you to provide more comprehensive and informed patient care. This knowledge will empower pharmacists to make evidence-based decisions and offer valuable insights to patients and healthcare teams.

Interdisciplinary Collaboration: Learn how to collaborate effectively with other healthcare professionals, such as family physicians, nurses, and public health experts. Prashnee's insights will highlight the importance of a multidisciplinary approach in optimizing patient outcomes. Attendees will acquire practical skills and strategies for fostering better teamwork and communication within the healthcare ecosystem.

Leadership in Public Health: Explore opportunities for pharmacists to take on leadership roles in public health initiatives. Prashnee Naidoo's talk will emphasize the pharmacist's role in community health promotion, early disease detection, and preventative care. Attendees will gain a broader perspective on their profession's potential impact on community health and will be better equipped to advocate for pharmacist involvement in health policy and programs.
